Mothers in America are in serious need of a new deal to remedy a profound wage gap with other working women and men, and an outdated family support structure.

# Motherhood Manifesto

A documentary film and discussion about motherhood in America.

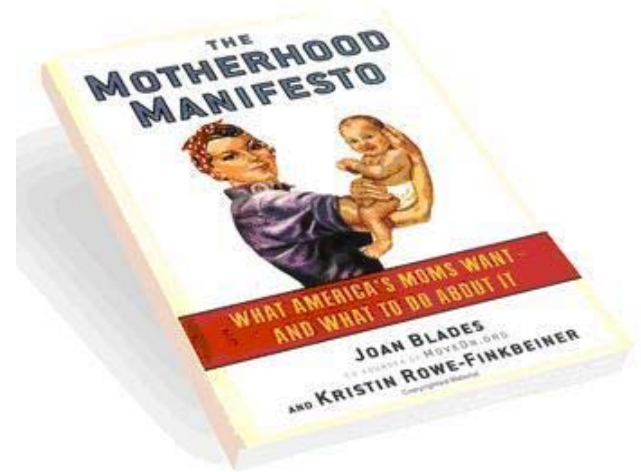

Produced by the national mothers' advocacy organization, **MomsRising**, *The Motherhood Manifesto* exposes the deep inequities and barriers faced by mothers in America, including discrimination in the workplace, the mother wage gap, abysmal parental leave, and a lack of affordable, quality childcare and safe after-school options. This documentary film brings to the screen many of the characters, experts and stories from the new book by the same name, written by Joan Blades, co-founder of **MoveOn.org** and Kristin Rowe-Finkbeiner, co-founder of **MomsRising**
